

Concerned for your Safety

The health and safety of our customers is our No. 1 priority. When we learned about this extended product recall, we immediately took action to inform you and ensure your safety.

On June 9, 2007, United Food Group (Moran's) expanded its recall of ground beef. The product was sold under various brand names at retailers in several states. **The expanded recall impacts any ground meat at our stores with sell-by dates of 4/6/07 to 5/7/07.**

Customers should check their freezers for any ground beef products bearing the above sell-by dates. Bashas' and Food City will gladly offer a refund or replacement for these items.

Important information about meat products available at all locations of Bashas' Family of Stores:

- We only purchase beef from USDA-approved facilities.
- We will gladly custom-grind meat in our stores for you to ensure freshness and alleviate any concerns you may have.

Always remember to cook ground beef to an internal temperature of 160 degrees Fahrenheit, as measured by a food thermometer.
